

MEXICO BEACH COMMUNITY OPEN HOUSE

ON STORMWATER MANAGEMENT AND GREENSPACE IMPROVEMENTS

Join us for upcoming meetings to share your thoughts and ideas about several exciting projects in Mexico Beach!

Mexico Beach has been working with partners to plan stormwater management projects that integrate greenspace to provide benefits like better water quality and increased resilience, while also providing new recreation features and access to nature for community members.

Please drop by one of the open house events to see and discuss draft designs for restored parks and public areas that will provide safer connections for bikes, pedestrians, paddlers and golf carts, enhance access to beaches and natural areas, and increase recreation amenities for residents and tourists.

Two meeting times to choose from:

When? September 9, 2019 **OR** September 10, 2019
10:30 AM - 12:30 PM **6 - 8 PM**

Meetings are all held in Central Standard Time

Where? St. Joe Beach Fire Department
7912 Alabama Ave, Port Saint Joe, FL

Questions: Contact City Hall at (850) 648-5700
