

The City of Mexico Beach will be performing hydrant flushing starting the week of October 21, 2019, 2019. The date and timing of the flushing is weather dependent.

Hydrant flushing is necessary to insure water quality and that chlorine disinfect residuals are reaching all ends of the distribution system.

During this period customers may experience slight drop in water pressure and possibly some discolored water. Both of these issues should be temporary and quickly clear up.

If you have any questions or concerns regarding water quality please contact Thomas Wilson, Utilities Superintendent at (850) 247-3001 or Tommy Davis, Public Works Superintendent at (850) 527-3087.

The list of streets that are to be flushed are as follow.

Canal Parkway	Miramar Drive	42 <sup>nd</sup> Street South	41 <sup>st</sup> Street South
